Taylor St. Germain is an economist with ITR Economics. He specializes in forecasting at both the market and company levels and is a key contributor to maintaining ITR Economics' forecast accuracy rating of 94.7%.

In his five years with ITR Economics, he has worked with various distributors, manufacturers, and producers, helping each client navigate the business cycle and optimize their corporate planning strategy.

As an experienced economist, Taylor mainly provides consulting services for small businesses, trade associations, and Fortune 500 companies across a spectrum of industries. His dynamic personality and extensive knowledge of economic trends and their business relevance are highly valued by clients and colleagues alike.

Taylor spent time in the tech industry providing market intelligence to electronics OEMs, semiconductor companies, and component manufacturers. He also has spent several years in Texas furthering his research in the industrial sector, with a specific focus on oil and gas.

Taylor earned his bachelor's degree in statistics from the University of Vermont and is finishing a master's degree in applied economics at Southern New Hampshire University. He has been featured in OEM Magazine and on the Fab Lab and Wealth Formula podcasts.
