

## SPEAKER INFORMATION

**Lingke Zeng**  
Project Director  
Civil and Environmental Consultants  
Phone: 610-984-1722  
[lzeng@sanbornhead.com](mailto:lzeng@sanbornhead.com)

Lingke Zeng is project director at Civil and Environmental Consultants and has over 18 years of experience in complex site remediation and water treatment to address a range of contaminants, including PFAS. As a technical expert, she has evaluated, designed, and implemented remediation and waste treatment at more than 300 commercial and government sites throughout the United States and internationally.

Her main responsibilities include remedial treatability studies, feasibility studies, and remedial treatment design and implementation. She is currently participating in developing innovative technologies and facilitating innovative technology transfer. Lingke also is an effective communicator who can share technical information with audiences of various backgrounds.

She has a bachelor's and a master's degree in biotechnology from Nanjing University and a master's degree in environmental science from Ohio State University.
